Drinking Water Reservoir	1050 L
Propulsion energy	diesel
Fuel tank	375 L
Double steering	Yes
Bow thruster	Yes
Other equipment	220-volt shore power supply, Radio CD/MP3, Terrace with garden furniture on request

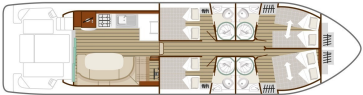

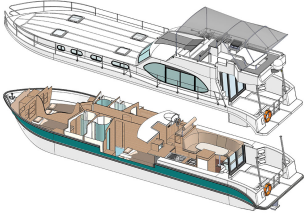

The Octo Fly is a river cruiser that ideally accommodates four couples or three couples with two children.

The Nicols Octo Fly from the Fly range is 15 metres long and is the largest model (or "flagship boat") produced in the Nicols boatyards. Thanks to its bow propeller, piloting the Octo Fly is child's play.

This river cruiser comes with four cabins and four bathrooms and offers the highest-level of comfort you can find on the river tourism market with a large fridge, hob and oven, satellite television, radio/CD/MP3 player and 220-Volt shore power supply.

The boat has a covered aft terrace with garden furniture and access to the upper deck where you will find a dining area with an outdoor kitchen (sink, plancha grill) under the shade of a bimini top, a second outdoor cockpit and two deck cushions for lounging outside. As with the other boats in the Estivale range, swimmers will be delighted to find a boarding ladder and a deck shower. Don't wait any longer to cast off on this licence-free houseboat with extraordinary features!

- Mattress and seat top in high-density 15 cm thick foam, covered in leatherette

FITTINGS

- Handrail in stainless steel tubing, diameter 20
- 1 fore railing in 2 sections with intermediary tubing and fore passage (stainless steel, diameter 23)
- 1 aft guardrail with 2 opening gates (stainless steel tubing, diameter 23)
- 4 reinforced chandeliers
- 10 single chandeliers
- 2 rows of railings (sheathed stainless steel) to starboard and port side
- 6 x 250 cleats (anodised alu)
- 4 navigation lights
- 3 black PVC sheer rails attached to the hull, incl. 1 at level of hull/deck connection
- 2 gangway supports in opening of side gates
- 1 aluminium gangway
- 1 roller support for anchor chain
- 1 electric windscreen wiper
- 1 audio warning device
- Fly equipped with handrails

MOTORISATION

- 1 x 50 CV in-board diesel motor (shaftline) equipped with a hydraulic shutter with flexible coupling
- 1 x 295 L fuel tank
- 1 x 2-station hydraulic steering system
- *Main cockpit (saloon)*: 1 mono-lever gas compartment, 1 tachometer, 1 fuel indicator, 1 hour meter, 1 rudder angle indicator, 1 engine oil temperature indicator, 1 battery-level indicator and 1 waste water tank level indicator.
- *Secondary cockpit (flying bridge)*: 1 mono-lever gas compartment, 1 tachometer, 1 rudder angle indicator.
- 1 engine hold with sound-insulating foam

BOW THRUSTER

- 80 kg fore thruster
- 80 kg aft thruster
- Single control for both thrusters

WASTE WATER STORAGE

- 2 stainless steel double tanks with a total capacity of 400 litres
- 1 deck drain for emptying tanks

INTERIOR EQUIPMENT

Saloon

- 1 two-seat “pilot” bench
- 1 windscreen demisting fan heater
- 1 “C”-shaped bench, convertible into a double bed
- 1 beige coloured polyester table
- 1 electric refrigerator / freezer, 220 L, 220 volts
- 1 single-bowl sink (100 x 60) with draining board and mixer tap
- 1 x 4-hob hotplate with piezzo electric ignition
- 1 kitchen unit in 16-mm thick “light oak” coloured water-repellent chipboard
- 1 oven (gas-powered)
- 1 automatic bin door
- Curtains with blackout lining
- 1 x 22” LCD colour TV with DVD player – Satellite reception
- 1 Bluetooth FUSION radio – USB player – 2 speakers
- 220 V socket
- USB port

2 fore cabins

- 1 x 140×190 double bed convertible into 2 single beds with high-density 15 cm thick foam mattress
- Storage compartment under bed
- Wardrobe
- Storage units
- 2 opening portholes
- 2 square opening deck hatches
- Direct access to shower room and WC
- Mosquito screen/roll-up blind combination
- LED bedside lamps
- 220 V socket
- USB port

2 aft cabins

- 1 x 140×190 double bed with 15 cm thick foam mattress
- Storage compartment under bed
- Storage units
- 2 opening portholes
- 2 square opening deck hatches
- Direct access to shower room and WC
- Mosquito screen/roll-up blind combination
- LED bedside lamps
- 220 V socket
- USB port

4 shower cubicles – WCs

- 1 full round shower with access via 2 sliding doors in green-tinted Plexiglas and thermostatic tap

- 1 ceramic electric marine WC
- 1 beige polyester washbowl with mixer tap
