This boat is available in October 2025 & can be visited in our nautical base in Le Somail (Département 11 / Languedoc-Roussillon).

The Nicols 1000 from the Sedan range is an ideal canal barge for a family with three double cabins. The spacious front cabin is worthy of a captain while the other two cabins (approx 100 cm headroom above the bunk) are perfect for children or guests.

The two shower rooms make this barge comfortable for six people.

Large windows mean the living room is full of light with 360° panoramic views and the kitchen is fully fitted.

The Nicols 1000, like all the boats in the Sedan range, is so popular with customers thanks to the ground level rear deck with a garden living space and sun awning ☀ perfect for eating outdoors. A second steering position and seating on the top deck also helps the captain and crew make the most of the sun!

The NICOLS®-boatyard is:

A French builder and charterer, with 35 years of experience,
a varied range adapted to customer demand,
new models and continuous innovations,
an elegantly designed, sophisticated fleet,
bright, spacious and airy cruisers,
boats suited for families, with maximum safety
nautical bases on a human scale (exclusive to NICOLS®)
and presence in the most beautiful regions of France as well as in Germany, the Netherlands, Hungary and Portugal.

Our river cruisers are rigorously maintained throughout the season, with dry storage every winter where an examination and full, meticulous service of the deck and hull are performed, accompanied by anti-fouling.

The advantages of NICOLS® service:

Thanks to our network of bases across France, some bases can offer you their services. They have the benefit of full knowledge of our boats combined with real expertise, providing the following:

Mooring your boat,
Wintering with repairs, etc.
Fitting additional equipment
Obtaining your licence

After Sales Service / Spare parts:

Since NICOLS® is a builder and charterer, we have a warehouse within our boatyard containing spare parts and other accessories. We remain at your disposal at all times to offer you advice and services.

The annual maintenance budget:

The fact that NICOLS® boats are designed with a polyester hull means they have a very low maintenance budget; their simple, practical and rational design, originally created for charter, also contributes to this low maintenance cost.

As an owner, you should plan to have your boat serviced on land every 3 to 4 years. Other than that, in the same way as a car, it is a question of ongoing maintenance (oil change).

You didn't find the perfect boat under our offers? Please do not hesitate to contact us and let us know what you are looking for and we will find a suitable boat for you.
